THURSDAY, DECEMBER 7, 1865.

CUTTING DOWN THE ESTIMATES.—According to a Washington correspondent of the New York Commercial Advertiser, the President has taken a very active and important part in the work of arranging the estimates for the ensuing fiscal year, preparatory to laying them before Congress, and he has insisted on general, searching, and inexorable retrenchment, sending back the estimates of one department after another, with the result that the work is now at a standstill. At every step by the President's efforts of place men and others to prevent the abolition of swarms of offices and long lists of names, and it is a matter of no small difficulty to resist their importunities, but the President has succeeded wonderfully.

The reduction of the army and navy was easily the most important work all anxious to get done. So it is easy to get rid of the useless materials of war, sold, because there is no special influence at work to interfere with the movements. But the disposal of offices, naval, military, and civil, the cutting off allowances, and the wiping out of special branches of service no longer needed, these are different matters, requiring firmness and determined will on the part of the President. It has been the anxious desire of President Johnson to have his administration make a good record in this behalf, and to this end he has cultivated a good feeling with the late rebellion States, and sought to avoid the necessity for arms of occupation or repression. For this reason, also, he has refrained from a warlike policy toward foreign nations.

We hear that H. C. White and John J. Macklin, merchants of Covington, have instigated suits in the Kenton Circuit Court, against Dr. D. B. Miller, Thomas Dempsey, John M. Bowen, and R. G. Mathews, who composed the Board of Trade of the Sixth District of Kentucky, in 1864, to recover damages caused by said Board refusing to issue to their trade partners Wm. C. Johnson, 55,000 dollars, and Mathews, 50,000. We also learn that Dr. John Kenedy has brought suit against Thomas Dempsey and William H. Glare, who acted as Judges of Election in the Drower's Inn predict, in August last, for refusing to allow him to vote. Price & Chambers and James O'Hara have been employed as counsel for the plaintiffs in the two former cases, and John W. Stevenson for the Kennedy.

WHIPPED AND CLEARED.—William Johnson, soldier in the regular army, who was indicted for grand larceny in stealing a quantity of neckties from the store of Mr. Charles Thorne, on York street, Newport, some time ago, was tried in the Circuit Court on Saturday, and convicted of grand larceny, and sentenced to receive twenty stripes on the bare back, which was immediately executed by the court martial before the jail, and the culprit set at liberty. He took the whipping without flinching, and departed with a smiling face. It is said that while in jail, he robbed his fellow prisoners of all they had, and during the progress of the trial, he stole the tobacco of his comrade, Mr. Hallam, who was making an earnest defense for him without fee, under the appointment of the Court.

WATER IN THE PLAIN.—It has been stated that Mayor McCracken had made arrangements with Engineer McGraw, of the Cincinnati Fire Department, to fill the public cisterns of Newport with one of the steam fire engines of the former city. The job was performed to a satisfaction, and the cisterns were filled with water, but it will probably result to the advantage of both cities in stimulating railway enterprise.

SECRETARY STANTON has no great love for music. Secretary Wells, who is said to be quite deaf, affects a great fondness for it. A professor in Washington who was trying to get up a series of subscription concerts in that city, and upon Mr. Stanton to get them to consent to subscribe, and make a donation thereto that the Secretary of the Navy had already put his name down. "Oh," replied the chief head of the War Department, "if I were as deaf as the Secretary of the Navy, I would subscribe too."

ON and after the 1st of December there will be ready for delivery at the post-office stamped envelopes of the denominations of nine, twelve, eighteen, twenty-four, thirty, and forty cents, designed to cover small mail to be carried by the regular mails. These envelopes will be of good paper, and designed to our business, and will prove of great advantage to our business men in their correspondence with railroads.

A delegation from the City Government of Boston, consisting of Messrs. A. S. Denio and Robert Marsh, Aldermen, J. B. Stearn, Superintendent Fire Alarm Telegraph, and D. Chambrelan, engineer of the Fire Department, are now on a visit to the principal Western cities for the purpose of examining the fire department system, arrived in Cincinnati from St. Louis Monday.

DR. A. RICHARD JONES' DISPENSARY FOR THE CURE OF SPECIAL DISEASES, 209 FIFTH STREET, BETWEEN MAIN AND MARKET. Having for several years past noticed the want of a safe and reliable remedy for the cure of many diseases, and the want of a safe and reliable physician to prescribe for them, he has determined to invent and to furnish to the public a safe and reliable physician to prescribe for them.

THURSDAY, DECEMBER 7, 1865.

CONTRARY to our expectations, printing-paper has advanced 25 per cent in the last month, and we are obliged to make a change in our terms, which from this date will be

Daily per ream...	\$12 00
Daily per 2 months...	6 00
Daily per month...	3 50

The Post-office will be closed for Thanksgiving Day, from 9 A. M. to 5 P. M.

To enable those engaged in our office to observe Thanksgiving Day, no evening paper will be published on Thursday, or morning paper on Friday.

NEW BUILDINGS IN THE CITY.—One of the most extensive and interesting structures in the city is that of the Louisville Furniture Manufacturing Company, occupying the square on Ninth street, between Green and Jefferson. We have strolled through this building, and found it constructed upon the very best principles of architecture for durability and convenience. It has a front on Jefferson street of one hundred and five feet, running along Ninth to Green street, two hundred and eleven feet and four stories in height. The factory will be sufficient to hold all the members elected necessary to meet the wants of the city. Miss Clark, from the Fifth Ward school, was absent when the school was lost by a vote of eleven against one.

Miss Clark, from the Fifth Ward school, was absent twenty-five per cent for having failed two or three times to report her absence at the regular time of opening school to the principal of the school.

SALARIES to the amount of \$8,825 for the month of October were allowed; also other small dry bills amounting to \$2,693.

A motion to allow certain teachers in the Second Ward school their full salaries during the time they were absent was lost by a vote of eleven against one.

Miss Clark, from the Fifth Ward school, was absent twenty-five per cent for having failed two or three times to report her absence at the regular time of opening school to the principal of the school.

Salaries to the amount of \$8,825 for the month of October were allowed; also other small dry bills amounting to \$2,693.

A motion to insure the city buildings for two-thirds of their value for three years or more and referring the matter to the Finance Committee, with the privilege to act, was lost by one vote against three, it being not the regular practice of the city to insure its buildings.

Misses Bessie Filly, Lucy Bessie, and Susan Ward, school, third class, the latter for the German language.

Mr. Bernhard Schuettling was elected as German teacher for the Germantown school.

The resignation of Miss Laura Wilkinson, of the Second Ward school, was withdrawn.

The resignations of Miss Josephine Eyrish, from the First Ward, and Misses Emma Hubbard and Linda A. Walker, from the Seventh Ward, were accepted.

The Board adjourned till the first Monday in January next.

WOOD'S THEATER.—The KEAN'S in HAMILTON.—The great popularity of Mr. and Mrs. Keans in the city has been manifested in the purchase of the largest audience of the present season gathered within the walls of Wood's Theater. The weather was wretchedly inclement, and no one expected such a turn-out of the people, even to witness Hamlet, the acknowledged favorite of all admirers of Shakespeare. The play was very well received. Mr. Keans' Hamlet was a good piece of acting. The interview with the Queen was the distinctive feature of the performance. We never saw it better rendered. But the delineation of the character, Mr. Keans does not equal that of Mr. Murdoch, or Mr. Edwin Booth, or Mr. J. T. Lewis. In viewing this we have no wish to detract from the abilities of Mr. Keans. To rank beneath either of the actors named, in this particular role, is not creditable to him. In certain parts of the text he reading and acting excels; but in others of conception he falls, compared with the artists we have mentioned, and some others. Mr. Keans conceives and acts the part of Queen Gertrude very truthfully, but she does not equal either of the other two in this respect.

THE KEAN'S.—The KEAN'S in HAMILTON.—President of the United States in hereby directed to issue a copy of their statement to the Senate and Representatives in Congress, who are hereby requested to present the same to both houses of Congress.

THE KENTUCKY LEGISLATURE.
